**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-24, 40-49 drawn to a propulsion system with thrust direction (maneuver) modifying means, classified in class 60, subclass 228.
  - II. Claims 25-28, drawn to a method of extinguishing a solid propellant, classified in class 60, subclass 219.
  - III. Claims 29-35, drawn to a propulsion system having a plurality of valves capable of being simultaneously opened to stop the combustion of the solid propellant, classified in class 60, subclass 254.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method can be performed with valves that are not of the maneuver kind, such as pyrotechnically actuated plugs.
3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such adjustment of the axial velocity. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper. Applicant is required to elect for prosecution at this time between the inventions of Group I or Groups II and III (together).

5. A telephone call was made to Joseph Wolkowski and Kirsten Dockstader on 5/10-11/2005. A request of an oral election to the above restriction requirement was not made because Mr. Wolkowski submitted that the Applicant desires to do business only in writing. Applicants may want to take advantage of this opportunity to amend the claims along the lines discussed with Ms. Dockstader on 5/10/2005, and present claims that were suggested by the Examiner to be allowable.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Election/Restrictions***

7. Applicant's election without traverse of the species of Fig. 13 in the reply filed on 5/2/2005 is acknowledged. Also, the Examiner acknowledges the filing of the Preliminary Amendment on 5/17/2004.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ehud Gartenberg whose telephone number is 571 272 4828. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Thorpe can be reached on 571 272 4444. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
